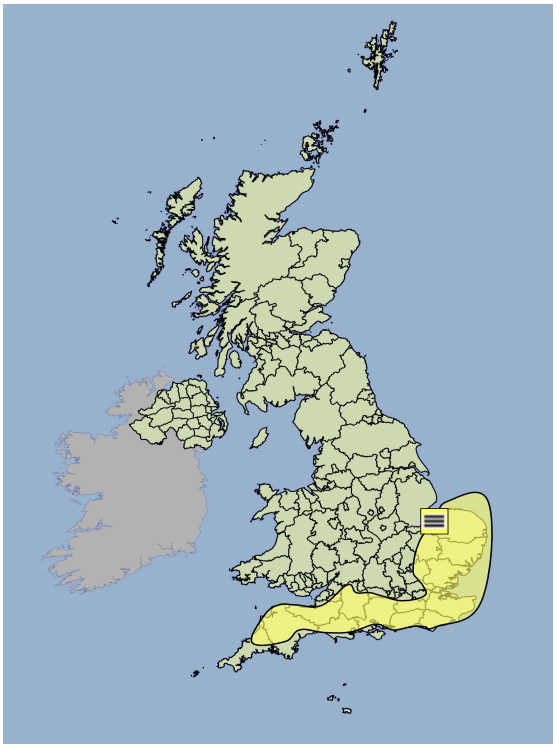
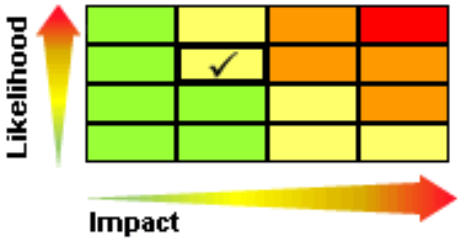
National Severe Weather Warning Service





Chief Forecasters Assessment
Fog is becoming more widespread and locally dense across Eastern England, whilst extensive low cloud is continuing to lower across southern counties of England leading to fog on hills and at lower levels in some places. The fog will lift into low cloud during the first part of the morning in the south, but a few dense patches will persist in the east until mid to late morning.

The Met Office have issued a **Yellow Warning** of **Fog**

Valid from **03:00 on Mon, 29th Sep 2014** until **10:00 on Mon, 29th Sep 2014**

Areas of fog will be dense in places across southern and eastern parts of England at first this morning and may cause some disruption to travel.
